Academic Year 2015-16

Opportunities to Blossom at NPSI, Mysore

03 July 2015

Dear Parents

As we enter the third academic year at NPSI Mysore, we would like to thank each one of you for supporting us and motivating us all through the way.

NPSI, Mysore is a place where students are exposed to innumerable number of opportunities to develop their personalities positively, which helps each child blossom into confident individuals. We present all students on the stage during various mega events at school, each academic year. Apart from these, students participate in umpteen number of competitions throughout the year... the number runs anywhere between 50 to 60. The crate of competitions varies from literary to cyber, from arts to sports.

Personality development being our key area of focus along with academics, we have given our students scope to explore their talents in the field of music, dance, theatre, yoga, reading art, craft and sports. The junior lab, class presentations, hands-on activities, field trips and the numerous Olympiads enhance learning and make it fun. Our website and school year book 'Silhouette' stand testimony to all the activities that are part of the grooming at our school. Apart from these, inter house and inter class competitions at school in various areas right from recitation to slogan writing and street play, gave a great boost to the morale and confidence of the students. Along with the host of co-curricular activities available, extracurricular activities (ECAs) are an add-on for the students.

Despite the plethora of activities available to our students at NPSI Mysore, we note with regret that some parents are still dissatisfied and have expressed displeasure at the non-availability of transport for ECAs. We would like parents to understand that as far as ECA transport is concerned, the problems associated are many. To begin with, the route maps have to be different, the drop-off points will be different, drivers will be different and the number of buses plying the routes will be fewer as all the route buses cannot come back on time for the ECA trip. Our secondary and senior secondary students will also have special classes after 3 pm on certain working days. All these problems will definitely cause a delay in the students reaching home after ECAs.

Inspite of the above mentioned problems, the school has provided transport on Tuesdays and Fridays for ECA students. We would like to bring to your notice that it is not a practice at any of the other branches of NPS to provide school transport on ECA days. However, we shall continue to provide transport on Tuesdays and Fridays this academic year despite the problems cropping up. We would like to inform parents that school transport facility for ECAs will be discontinued from the next academic year.

We would like to remind parents that ECAs are only a drop compared to the ocean of co-curricular activities and competitions available to the students on a daily basis during school hours.

We hope to have your continued cooperation and support in our constant endeavour to build up on the trove of activities we already have and offer them to our students so as to make them confident, independent and motivating individuals.

Best Wishes
Principal
